3. APPOINTMENTS AND DELEGATIONS

Councillor Lutes recused herself at 7:04 p.m. and left the meeting.

3.1 Tyler Schmidt, Schmidt Architecture - RTC Properties West Porpoise Bay Estates Development

Mr. Schmidt provided Council with an overview of the development and RTC's involvement since 2015. He explained a brief history of the Form P, which describes the

exact form of development, density, associated unit entitlements and timing for commencement and completion of each phase. Mr. Schmidt also explained that once the Form P is signed by the Approving Officer and is registered at the BC Land Titles Office, it becomes a legally binding document which binds all parties involved and those affected by it in the future. He provided an overview of the development, including the zoning of the property and the allowable height and massing under the current zoning, as well as the design principles. Mr. Schmidt explained that the development plans are to be integrated with the natural features and vegetation as well as the use of complementary building materials.

The Mayor thanked Mr. Schmidt for his presentation.

3.2 Catherine Calder, Resident - RTC Properties West Porpoise Bay Estates Development

Ms. Calder expressed concerns on behalf of residents of Marine Way regarding the proposed West Porpoise Bay Estates Development, including:

- Environmental concerns, and the request for further comprehensive environmental assessment studies including potential negative impacts on the standing forest and sensitive landscape and active eagle nest and other riparian dependent nesting and foraging flora in this specific area
- The suitability of the steep slopes of the property for construction
- The height of the proposed development and its location in proximity to the water
- The width of the road between buildings, and adequate road access to the development
- The Form P and Disclosure Agreement
- Residents' Garage access
- The form and character of the development
- The protection of existing buildings during construction
- The affordability of the proposed units

Ms. Calder invited Mr. Doug Nogler, Marine Way resident, to speak.

Mr. Nogler noted his reasons to relocate from Vancouver to the Sunshine Coast, specifically the natural environment and ocean view. He explained that he and his wife's decision to purchase the particular unit on Marine Way were based on the denial of the previously proposed height variance. Although Mr. Nogler was aware of more construction on the development property, he was not aware of the current proposal height. He expressed that he was unaware of the extent of the developments obstruction to his current view. Mr. Nogler feels he and his family were misled by the realtor and developer. In addition, he feels that further environmental study should be conducted.

The developer briefly spoke to provide clarification regarding the delegations presented.

Councillor Lutes returned to the meeting at 7:43 p.m.

Recess: *The Mayor recessed the meeting at 7:43 p.m.*

Reconvene: *The Mayor reconvened the meeting at 7:44 p.m.*
